

Data Protocol for the Real Time PLC

Step 1 Pick a grade and a Target focus

Enter the Name of the Assessment:

I see that Target/Cluster _____ in Grade _____ is a major target.

The standards assessed from this target are _____ .

Note: Major targets and standards appear in yellow in the data matrix and minor appear in blue.

Step 2 Look at the BETA DATA results and complete the table

The stems that need to be retaught are as follows:

Standards and Stems	Overall Score on the Stem	Reteach Plan/Rationale (Whole group, small group, one-on-one)	Reteach Date
EX: NS 1 (1) - stem is number in parenthesis	18%	Whole group- a majority of the class was incorrect and the student who got it correct is struggling and probably got lucky.	12/19/22

Step 3 Create a SMART Goal (Specific, Measurable, Achievable, Relevant, Time-bound)

By _____, _____% (or #) of my students will score _____ or greater on
(enter date)

_____ Stems: _____ in Target _____.
(enter grade level)

Step 4 Administer a retake to determine success of the reteaching efforts.

Resources for Success

• What does the student do?	• What does the teacher do?
• What does the grade level team do?	• What does the coach do?
• What does the admin do?	• What does the parent/guardian do?
